

Highlights:

- Mesh perforation with hexagonal pattern
- Swing handle with cylinder lock
- Installable on front and rear

The SPR27GL is a perforated steel grill door, which replaces the standard included tempered glass door for SPR series 27" rack cabinets with a height of 27 U and width of 600mm. The mesh perforation with a hexagonal pattern provides optimal airflow through the cabinet. The swing handle with cylinder lock safely locks the equipment inside.

Product Features:

Unit height	27 HE
Weight	6 kg
Colours	Black (RAL9004)
